ABOUT US

Welcome to EUROPROFILO®, where excellence meets innovation in crafting uPVC windows and doors profiles. As Pakistan's unrivaled market leader, we pride ourselves on delivering products that embody the pinnacle of craftsmanship and performance, forged through a relentless dedication to precision and inspired by European ingenuity.

In our pursuit of perfection, we recognize the transformative power of windows and doors in elevating the ambiance, security, and energy efficiency of any space. With this understanding at our core, our team of experts works tirelessly to ensure that every EUROPROFILO® product stands as a testament to quality, durability, and unparalleled performance.

Renowned as the premier manufacturer of uPVC profiles in Pakistan, EUROPROFILO® sets the standard with profiles that surpass the rigorous benchmarks of BS EN 12608-1:2016 (British Standard). Formulated with specially crafted additives to withstand Pakistan's tropical climate, our profiles promise enduring durability, ensuring peace of mind for every installation.

COMPARISON CHART

DESCRIPTION	uPVC	WOOD	ALUMINUM
High impact resistance	Yes	No	No
Unaffected by temperature	Yes	No	No
Corrosion resistance	Yes	No	No
Resistance to exhaust fumes and building industry chemicals	Yes	No	No
Ageing resistance	Yes	No	No
Sea water resistance	Yes	No	No
Protective painting or polishing required	No	Yes	Yes
High insulation qualities	Yes	Yes	No
Good sound dampening	Yes	No	No
Windproof	Yes	No	No
No condensation or thermal expansion	Yes	No	No
Adaptable to meet architectural requirements	Yes	Yes	Yes
Can be formed into an aesthetically pleasing shape	Yes	Yes	Yes
Can be used in most varied climatic conditions	Yes	Yes	No
Qualities and appearance are stable even after years of external use	Yes	No	No
Ecologically sound as it is practically 100% recyclable	Yes	No	No

EUROPROFILO UPVC ADVANTAGES

- Pollution resistant
- Recyclable
- Strength and durability
- Weatherproof
- Noise-proof
- Lead free
- Corrosion-proof
- Easy to install
- Energy saving
- Termite resistant
- Highly secure
- Fireproof

COLOR OPTIONS

At Europrofilo, we understand the importance of color when it comes to architectural design and personal expression. Our commitment to offering an extensive range of color options is a testament to our dedication to meeting the diverse needs of our clients. Whether you're looking to enhance the aesthetic appeal of your residential or commercial spaces, our color palette has something for everyone. With a spectrum that spans from classic neutrals to vibrant, contemporary hues, Europrofilo empowers you to transform your living or working environment into a reflection of your unique style.

WIDE PRODUCT RANGE

• Sliding Doors • Sliding Windows • Openable Windows • Openable Doors
• Ventilators • Lift & Slide Systems • Slide & Fold Systems • ACE Door System

Sliding

Project Series - 70mm
Designer Series - 80mm & 92mm
Architect Series - 88mm, 98mm, and 112mm

Openable

Signature Series - 60mm
Royal 5-Chamber Series - 60mm & 70mm
Security Series - 115mm

OPENABLE WINDOW - 60mm / 70mm / 115mm

Our 5 chambers casement windows are considered the most-energy efficient. When closed, the window sash pressed firmly against the frame, creating an air-tight seal that helps to prevent air from entering or escaping. Additionally, the use of coextruded glazing beads makes it nearly impossible for water to sleep through.

These windows are available with glass range from 5mm to 35 mm. With their double sealing mechanism, they offer excellent sound reduction and water tightness, making them a popular choice for homeowners looking for maximum insulation and energy savings.

OPENABLE DOOR - 60mm / 70mm / 115mm

The five chamber casement system can feature either outside or inside openable options. Thanks to the coextruded glazing bead, water seepage is highly unlikely. Glass thickness can range from 5mm to 35mm.

A wide range of glass options allow for maximum insulation, making this system an excellent choice for homeowners looking to minimize noise pollution.

SLIDING WINDOW - 70mm / 80mm / 88mm 92mm / 98mm / 112mm

The maximum reinforcement 5 chamber design ensures guaranteed wind resistance. Glass options range from 5mm to 24mm. With coextruded gasket, assembly is both easy and tight, ensuring a secure seal. The system can be designed with or without mesh, depending on the specific needs of the homeowner. Additionally, the euro groove fits all advanced hardware available in the uPVC industry.

SLIDING DOOR - 70mm / 80mm / 88mm 92mm / 98mm / 112mm

Our 5 chamber sliding system has the ability to resist string winds. It features glass panels ranging from 5mm to 24mm in thickness. Additionally, the frame includes a separate drainage chamber and slope, which facilitates faster water drainage. The system can be designed with or without a mesh, and the mesh can be placed either inside or outside the frame.

OUR TEAM

Behind every Europrofilo product is a team of dedicated professionals with an unwavering commitment to excellence. Our team's experience in the building industry spans 45 years of excellence and quality. We believe that perfection lies in the details, and our skilled engineers, designers, and production experts leave no stone unturned in their pursuit of precision and quality. Our team works diligently to create products that are not merely functional but also exemplify architectural finesse, enhancing the aesthetics of your spaces with every installation.

ACHIEVEMENTS & CERTIFICATIONS

In the past years, our commitment to excellence has been acknowledged through prestigious awards. In the years 2021, 2022 and 2023, we were honored to receive brand of the year awards that highlight our outstanding performance and product quality.
